PUBLIC HEARING 10.6.26 – 7:00 PM
INTRODUCTORY LOCAL LAW 5 OF 2026
"A LOCAL LAW TO ENACT REGULATIONS REGARDING THE USE OF ELECTRIC BICYCLES AND ELECTRIC SCOOTERS"

A Public Hearing was held on Tuesday, October 6, 2026 in the boardroom of the Village Hall, 7 Stage Road, Monroe, NY at 7:00 PM to review a proposed Local Law entitled, "A Local Law to Enact Regulations Regarding the use of Electric Bicycles and Electric Scooters." The Village Board of the Village of Monroe is considering a local law to promote and ensure the health, safety and welfare of Village residents, and all whom traverse or otherwise utilize the roadways and sidewalks within the Village.

Present: Mayor Melchiorre, Trustees Behringer, Karl, Mancuso and Peifer
Also present: Attorney Conway and Clerk Zahra

On a motion by Trustee Behringer, seconded by Trustee Karl and carried, the public hearing was opened at 7:00 PM.

Jeff Peifer, Village resident, expressed concerns that the proposed e-bike restrictions may be overly restrictive. The resident noted that the path around the lake was developed for bicycle use but is also heavily used by pedestrians. They questioned how residents using e-bikes for commuting or exercise would safely access the Heritage Trail if e-bikes are prohibited from the path, noting that riding on 17M presents significant safety concerns. Mr. Peifer also questioned the prohibition on e-bike use after dark when appropriate safety equipment is used and requested a clearer definition of what constitutes riding in a "reckless manner."

The Board feels that the local law is still in need of revisions and has therefore decided to leave the public hearing open to accept written comments and to hear additional comments from the public at the continued public hearing, which will be held at the next regularly scheduled Board of Trustees meeting.

There were 5 people from the public present for the public hearing. There was no written correspondence received. The public hearing was left open for 15 minutes.

With no further comments or questions, on a motion by Trustee Behringer seconded by Trustee Peifer and carried, the public hearing was left open until the October 20, 2026, meeting at 7:00 PM.

FREELAND STREET SIGNAL REPAIR:

The Board discussed issues concerning the Freeland Street traffic light, including its timing and the inability to obtain reimbursement from Orange & Rockland Utilities for an incident that occurred on July 7, 2026.

The July 7, 2026 incident involved a fallen Orange & Rockland Utilities high-voltage wire, which caused pavement damage and a power surge that damaged the traffic signal controller and related equipment.

Following discussion, the Board agreed to have Ray S. Pantel review the current timing of the Freeland Street traffic light and make any necessary adjustments to improve its operation. The Board would like this review and any feasible adjustments to be completed, if possible, before proceeding with the proposed $33,000.00 repair expenditure, as the repair work may not be necessary at this time.

DISCUSSION – REILLY ROAD POTHOLE – REQUEST FOR DPW ASSISTANCE:

An email was received reporting a pothole on Reilly Road, located between the Village-owned Blue Gate House and 8 Reilly Road, which is also now Village property.

The pothole has been progressively worsening and is a particular concern as we approach freezing temperatures and winter weather. Salt, snow, and plowing may make navigating this portion of the hill more difficult and potentially hazardous for residents, Village vehicles, DPW trucks accessing 8 Reilly Road, and, importantly, residential oil delivery trucks that need to back up the hill.

There is also some history regarding this location. In the past, former Mayor Dwyer authorized the DPW to patch the pothole after being made aware of the situation. His understanding was that, with the Village now owning 8 Reilly Road, there was a practical reason to address the condition even though Reilly Road is considered a private residential road.

Discussion: Attorney Conway stated that he confirmed Reilly Road is a private road with multiple homeowners. He explained that, as a general rule, when repairs or other necessary work are required on a private road and there is no agreement in place addressing the costs, the expenses should be shared equally among the property owners.

The Board agreed that it is morally appropriate for the Village to share in the cost of necessary repairs to the portion of Reilly Road serving the Village-owned property.

Counsel will send a letter to the property owners who share this private road with the Village-owned property to address the situation and discuss the shared responsibility for repair costs.

DISCUSSION – REQUEST FOR ADDITIONAL STREET LIGHTING ON HIGH STREET:

A request was received regarding additional street lighting on High Street, from 222 High Street toward Gilbert Street. The request noted that several poles lack lighting and that existing illumination is limited, creating pedestrian safety concerns, particularly for residents walking to and from synagogue after dark with children. The Board was asked to review the area and consider additional street lighting.

Discussion: Mayor Melchiorre stated that he would like to visit the area after dark and under varying weather conditions to better assess the existing lighting and any potential safety concerns. Trustee Karl reported that he had driven through the area and observed the high-pressure light near the corner of Swezey Place and High Street, noting that the light splatters rather than providing focused illumination. He suggested considering an LED streetlight, which would provide more downward-directed lighting and may be more cost-effective to operate.

Trustee Karl also noted that an inventory of the Village's streetlights had previously been completed in connection with the streetlight proposal discussed by the Board. He recommended that the Village review the existing streetlights and consider upgrading them to LED fixtures where appropriate, with the potential for improved lighting and energy cost savings.

Mayor Melchiorre will confer with the Village Engineer and Police Department regarding the request for additional lighting and will further assess the need and appropriate location for an additional streetlight.
